Guarantee**

To Users of Genuine  
Crofoot Staples

Any time Crofoot Tackers fail to work to your entire satisfaction, send to us with return postage and same will be repaired free, unless broken (in which case charge will be nominal.)

THE machine gun speed of the Crofoot Screen Tacker enables you to tack **four** screens in the same time required to tack **one** screen using an old-fashioned hand hammer.

The profit from this increased production plus the decreased labor cost on each screen will easily pay for the Crofoot the first day you use it.

The Crofoot works like a machine gun—as fast as it drives one staple home another one slips automatically into the "firing chamber." Staples come in strips of 77—only 3 seconds to insert new strip.
